Math 2222 E Course Syllabus

Instructor: Tom Cuchta
Office: Rolla 306
Office Hours: Wednesday 11:00-12:00, or by appointment
Tutor lab: Wednesday 12:00-1:00
Email: tcvh5@mst.edu
Class webpage: Navigate to <http://tomcuchta.com> and click on "MATH 2222E"

MyMathLab Course ID: **cuchta81068**

Prerequisite: Math 1215 or Math 1221 with a grade of "C" or better.

Attendance Policy: You are expected to attend every class period in its entirety, but attendance will not be recorded for a grade. If you miss a class, it is *your* responsibility to find out what you missed and to pick up any returned work.

Exams: There will be four 50-minute exams worth 100 points each during the semester. The exams will cover the material from the textbook, homework problems, and additional material covered in class (another reason to not miss class). If we feel that you need formulas for an exam, we will let you know ahead of time what they will be and provide them with the exam. The 100 point exams will be given at 5:00 PM on the following days: Monday, September 21; Monday, October 19; Monday, November 9; and Monday, December 7. These evening exams are scheduled class times, and *you* are responsible for working out any conflicts to ensure that you are present for each scheduled exam.

MyMathLab Work: All homework in this course will be completed using MyMathLab, and you will also take weekly quizzes using MyMathLab. You should make it a practice to complete this work daily. Work assigned in MyMathLab work will contribute 50 points to your overall grade.

Miscellaneous Points: 50 points will be available via in-class quizzes. These quizzes will be "pop quizzes" in the sense that they will not be scheduled in advance. Each quiz will be worth 5 points and may be given at any time. Make up quizzes will never be given.

Calculator Policy: The use of calculators is prohibited on all exams and quizzes in this course.

Final Exam: All Calculus III sections will take a common, comprehensive final exam on Thursday, December 17 from 7:30 AM-9:30 AM. This exam will count as 200 points toward your final grade. If, before taking the final exam, your overall grade is calculated using your lowest 50-minute exam score as your percentage on the final and you have at least 630/700 points with that calculation, then you are exempt from taking the final and your overall grade is an A. Students in this situation will be notified at least 24 hours prior to the final exam. All other students must take the final exam, and if your percentage on the final exam is higher than your lowest 50-minute exam score, that percentage will replace your single lowest 50-minute exam score in addition to counting as the final exam. Any student who has missed a 50-minute exam for any reason must take the final, and their percentage on the final will replace the zero on the missed 50-minute exam. Only one 50-minute exam may be replaced by the final.

Grading Policy: On all work submitted for grading, you are expected to show your work clearly and completely. You will be graded on your work as well as on your final answers, but a correct final answer that is neither supported nor justified by work you have shown will receive no credit. Any questions regarding the grading of any submitted work must be brought to my attention within one week of the date it is returned to the class or no changes will be made in the grade. There are 700 total points possible in this course, divided as follows:

Exams:	400 points	Miscellaneous Points:	50 points
Final Exam:	200 points	MyMathLab Work:	50 points

The grading scale is as follows:

- A Total points ≥ 630
- B $560 \leq$ Total points < 630
- C $490 \leq$ Total points < 560
- D $420 \leq$ Total points < 490
- F Total points < 420

Tutoring Assistance: The Department of Mathematics and Statistics provides tutoring in Centennial 105 for students in calculus and pre-calculus courses. Beginning Monday August 24, the Math Learning Center will be open from 12:00-1:00 MWF and 4:00-6:00 MTWR on days when regular classes are in session.

Emergency Egress: Please familiarize yourselves with the classroom egress maps posted online at <http://designconstruction.mst.edu/floorplan/>

Disability Support Services: If you have a documented disability and anticipate needing accommodations in this course, you are strongly encouraged to meet with me early in the semester. You will need to request that the Disability Services staff send a letter to each of your instructors verifying your disability and specifying the accommodation you will need before arrangements can be made for your accommodation. Disability Support Services is located in 204 Norwood Hall (341-4211, dss@mst.edu). Their website is <http://dss.mst.edu>

Academic Integrity: All students are expected to maintain academic integrity. Cheating will not be tolerated. Cheating includes but is not limited to use of any unauthorized assistance in taking quizzes, tests, or examinations or knowingly providing any unauthorized assistance to another student on quizzes, tests, or examinations. Page 30 of the Student Academic Regulations Handbook (which can be found at <http://registrar.mst.edu/academicregs/index.html>) describes the student standard of conduct relative to the System's Collected Rules and Regulations section 200.010, and offers descriptions of academic dishonesty including cheating, plagiarism or sabotage.

Title IX: Missouri University of Science and Technology is committed to the safety and well-being of all members of its community. US Federal Law Title IX states that no member of the university community shall, on the basis of sex, be excluded from participation in, or be denied benefits of, or be subjected to discrimination under any education program or activity. Furthermore, in accordance with Title IX guidelines from the US Office of Civil Rights, Missouri S&T requires that all faculty and staff members report, to the Missouri S&T Title IX Coordinator, any notice of sexual harassment, abuse, and/or violence (including personal relational abuse, relational/domestic violence, and stalking) disclosed through communication including but not limited to direct conversation, email, social media, classroom papers and homework exercises.

Missouri S&T's Title IX Coordinator is Vice Chancellor Shenethia Manuel. Contact her directly (manuels@mst.edu; (573) 341-4920; 113 Centennial Hall) to report Title IX violations. To learn more about Title IX resources and reporting options (confidential and non-confidential) available to Missouri S&T students, staff, and faculty, please visit <http://titleix.mst.edu>.

Questions: If you ever have a question about anything, please come see me during my office hours or make an appointment. However, if this does not resolve your concern, you may contact Dr. Ilene Morgan (Rolla 212), the course coordinator for Math 2222. If your concern is not resolved by speaking with Dr. Morgan, you may contact Dr. Stephen Clark, the department chair of Mathematics and Statistics, in Rolla 202.
